## Ice Reimbursement

For the current season, the Glenlake Minor Hockey Club (“**GMHC**”) board has approved up to \$500 per team reimbursement (the “**Reimbursement**”) for additional purchased ice times (“**Purchased Ice**”) beyond the allocations made by GMHC. GMHC expects all teams to first use the ice trader system located in their Hockey Calgary team site (“**Ice Trader**”) prior to acquiring Purchased Ice:

### Eligibility

- Only teams in the community stream are eligible for the Reimbursement (House League teams are not eligible).

### Use

- Purchased Ice must be used for skill development, practices or exhibition games.

### Criteria

- Teams will only be eligible for reimbursement if all of their allocated ice time from November 1 through February 28 is used. This includes ice that is returned through the Ice Trader that does not get picked up by another Glenlake team (regardless of how early such ice time is made available).
- Teams who have a conflict are encouraged to make their ice time available through the Ice Trader as soon as possible to avoid having it go unused.

### Reimbursement

- Maximum reimbursement for the current season will be \$500 per team for Purchased Ice that is used between September 15 and March 1.
- The Reimbursement will be paid prior to March 31. Any receipts for Purchased Ice submitted following March 31 will not be reimbursed.
